

LAY OF THE LAST SWATTER.

'Tis not in the fair summer  
That the fly gets in his work;  
He's a busier little hummer  
When the sun begins to shrink.

He buzzeth like a buzz saw,  
And he sticketh in his spear;  
He diggeth microbes with his paw  
And drops them in your ear.

He marathons across your bean  
And volplanes down your back;  
His feet, as ever are unseen—  
Let's give him one more whack.

To arms! The old wire swatter's hot;  
Go swat him in the air,  
And swat him on the old whatnot—  
Bing! Swat him everywhere.

STILL ANOTHER  
Hold-Up Frustrated By a Plucky  
Woman—It Behooves Women  
to Be On Their  
Guard

It was alone by grim determination and  
genuine pluck on the part of Miss Ellen Swift  
that she escaped last night being robbed by a  
colored highwayman as she was on her way  
to the home of her aunt, Mrs. Jane Murphy,  
in East Fifth street.

Last evening about 7:45 o'clock Miss Swift  
was passing South on the East side of the  
walk between Fourth and Fifth street, and as  
she was turning into Fifth she was resolutely  
by a colored man standing in the shade of the  
trees lining the sidewalk, who attempted to  
grab her purse.

Fortunately Miss Swift saw the would be  
robber in time to hold tight to her purse and  
scream for aid. Her loud cries frightened the  
assailant who made a hasty retreat and en-  
tered, it is supposed by driving off in a buggy.  
Officer Gilvin was soon on the scene, but a  
thorough search failed to result in his  
capture.

The purse contained \$10 in money, a dia-  
mond ring and other valuables. It behooves  
women to be on their guard when traveling  
the streets after nightfall. A systematic ef-  
fort should be made to capture the thieves and  
those that are becoming too plentiful here-  
abouts.

In the Market For a  
WHEAT DRILL

Then Our "New Peoria" Is What You Want

It has perfect working discs, fitted with dust proof chilled  
bearings, single draw bars that will not gather trash, staggered  
spoke wheels with 7-inch hub and 3-inch tires, continuous rear  
bar with truss rod to support seat and keep drill from sagging,  
direct pressure in rear of disc; a feature we claim will make  
this drill work perfectly in any land suitable for sowing grain  
and where other drills cannot be operated. A seat in center  
of drill convenient to lever is also furnished. Drop in and let  
us show you what this drill can do, and furnish you with the  
names of a score of satisfied users. One feature of our drill  
that puts it in a class by itself and makes it superior to all  
other drills on the market is the "Peoria Disc Shoe." You  
won't find the disc shoe on any other press drill on earth, the  
Peoria people have that feature cinched and they are going to  
hang on to it. If you want to know why we can grow more  
wheat to the acre after this drill than any other with the same  
amount of grain sown, come in and let us explain to you the  
"New Peoria Disc Shoe Drill."

## REVIVAL AT BAPTIST CHURCH

Last night was the best of the revival  
which has been going on for three weeks.  
The sermon was one of the strongest yet.  
The main theme of his subject was that men  
always reap what they sow, be it good or bad.  
There were four additions to the Church.

This afternoon there will be services at 3  
o'clock.

Tonight the song service will begin at 6:45  
so that Rev. Perryman can begin preaching at  
7 o'clock sharp, in order to leave on the train.  
This will be the last service by Dr. Perryman,  
so let everyone come out to hear him.
